Forecast For London & Southeast England
Issued by Met Office Exeter
at 0400 on Tuesday 02 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloud and fog lifting, especially inland, to give sunny spells.

Today:
Extensive low cloud and any fog patches through the morning will gradually lift and break through the day. Good spells of sunshine possible by the afternoon, and feeling mild. Maximum temperature 13 deg C (55 deg F).

Tonight:
Low cloud returning overnight, along with mist and fog patches. The odd patch of frost possible where any clearer spells prevail. Staying dry with light winds. Minimum temperature 1 deg C (34 deg F).

Wednesday:
Early mist and fog patches lifting with some early brighter spells for most. Cloud soon thickening from the southwest, however with outbreaks of rain spreading northeast, heavy at times. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Cloudy Thursday with outbreaks of rain. These clearing south to colder and clearer conditions later. Dry, with sunny spells Friday and Saturday, but feeling rather cold with overnight frost.
